

## Quality Policy

ESSETI S.R.L. intends to maintain the ISO 9001 and EN 9100 Certifications, consolidating its commitment to Quality in the industrial and aerospace sectors. At the beginning of 2023, it also achieved the goal of acquiring the NADCAP Certification for the special wire EDM process, thereby obtaining another significant result in terms of quality.

The purpose of this document is to expressly declare ESSETI S.R.L.'s intention to continue to focus on a global concept of Quality capable of satisfying the following principles:

- *Respect for the environment;*
- *Occupational safety;*
- *Conformity of the products manufactured;*
- *Absolute compliance with mandatory regulations and Customer requirements;*
- *Choice of Certified Suppliers;*
- *Guarantee of free access to our plant by the Customer and the Competent Authorities.*

In order to satisfy these principles, ESSETI S.R.L. therefore sets itself, in no particular order of importance, the following objectives:

- *understanding the needs and expectations of all Stakeholders;*
- *punctually monitoring the risks and opportunities of the System and the Product;*
- *complying with the requirements and specifications of the Customer and mandatory regulations;*
- *focusing on the ongoing needs of the Customer;*
- *ensuring optimisation of the infrastructure and technical skills of personnel, through continuous training;*
- *implementing continuous improvement of the Quality Management System and related business processes;*
- *monitoring the performance of the Suppliers ensuring the flow-down of the Customer's requirements;*
- *protecting the confidentiality of the documents provided by the Customer;*
- *ensuring the conformity of supplies, guaranteeing above all the quality of the product and respecting the agreed delivery schedules;*
- *operating in absolute loyalty and moral integrity with all subjects.*

During the periodic Management review ESSETI S.R.L. monitors and updates the Quality Policy, which is communicated to all internal and external stakeholders.
